Asset Management Service

The Advance Group's Asset Management Service provides detailed management information that enables our customers to ensure every pound invested in catering or laundry appliances is well spent.

By ensuring that every appliance is asset tagged and then providing regularly reporting on its condition Advance can help you to:

- **Maximise the output of appliances**
- **Minimise appliance downtime**
- **Extend the life of appliances**
- **Manage gas, health and safety and insurance compliance obligations**
- **Control costs at an appliance level and make the right repair or replacement decisions over their lifetime**

All checks, maintenance and repairs are carried out by highly qualified and experienced Corgi registered engineers.

Detailed information from our engineers is then collated into a report and delivered in a user-friendly and meaningful way to enable you to gain a life time cost for every appliance and compare and contrast appliance performance by venue, area and manager.

Summary of Spend by Condition - Period January 07 to December 07

Area Manager	Customer ID	PRODUCT DESCRIPTI
